

INSTITUTE OF CONSTRUCTION TECHNOLOGY (ICoT)

BACKGROUND

THE INSTITUTE OF CONSTRUCTION TECHNOLOGY (ICoT) Is a public training institution under the Ministry of Works in the United Republic of Tanzania located in East Africa. It has been granted full Registration status by the National Council for Technical and Vocational Education and Training (NACTVET) on February 2021 with registration Number REG/SAT/035 to offer training in science and allied Technologies. It was established after merging two training institutes (The Morogoro Works Training Institute and Appropriate Technology Training Institute – Mbeya) which were operating under the Ministry of Works. The institute main campus is Located in Morogoro Region and it has a Campus which is located at Run gwe District in Mbeya Region, Tanzania.

MISSION

To provide a conducive training and learning environment that readily and effectively imparts competence-based knowledge, skills, and abilities for carrying out the construction functions necessary for the rapid socio-economic progress of Tanzania.
